WHAT IS INSTANT ISSUANCE?

Instant Issuance (also known as decentralized) means that the credit or debit card is issued and activated on the spot and then can be used immediately. It's essential for today's market, enabling financial institutions to get new or existing customers up and running with their bank card instantly. There are a number of ways to deliver this level of customer service including locating a card personalization machine in the branch or a self service kiosk which reduces branch staffing requirements.

KEY BENEFITS FOR THE FINANCIAL INSTITUTION:

- Increase your cards in the market.
- Increase card activation, usage and transaction rates.
- Increase customer convenience.
- Remain top of the wallet.
- Enhance customer experience.
- Reduce delivery costs and potential for fraud that comes with cards sent by mail.

KEY BENEFITS FOR THE CONSUMER:

- Instant purchasing power.
- Instant replacement of lost or stolen cards.
- A personalized connection with the branch personnel.

WHAT CAN NBS TECHNOLOGIES DELIVER

Industry pioneering technology and development.

Durable and reliable design making our products ideal for instant issuance applications.

Provider of market leading software applications.

Established partner network that covers the globe and supported by our world class services and training programmes.

Versatile design and formations enabling you to tailor our products to your individual needs.

Innovative software and technologies for security, EMV applications, hardware, software and product training.

CONNECT TO CUSTOMERS

NBS instant issuance solutions allow financial institutions to increase profits, boost customer engagement levels and develop brand identity. You can affordably issue personalized payment cards in branch and gain instant purchasing power.

CHOOSE YOUR DEVICE & START ISSUING

NBS Technologies offers everything you need for a successful instant issuance program, including software, systems, supplies and a full range of consultative services and technical support. In a few easy steps, NBS can configure and fully integrate your instant issuance solution to align with the way you want to do business. NBS is a supplier of:

MULTI-HOPPER
